GAME DENOUNCED AS BRUTAL SPORT

Dr. Jordan Puts Football in Same Class as Prize Fighting.

KITCHIN MAKES ADDRESS

Declares That Teachers Must Preserve Liberties of Nation.

Boston, Mass., July 5.—Denouncing college football as a combination of pure brutality and pugilism that appealed to the love of the sordid, David Star Jordan, president of Leland Stanford University, led in the discussion that followed a report made to-day by the committee on moral education in public schools, to the National Council of Education, of the National Education Association, in convention here. He added: "Some day the college presidents and school heads of this country will perhaps be called cowardly and brutal because they did not put a stop to the substitution of the English game of Rugby for the best there is in American youth."

The game, he continued, aroused the same love of the sordid that focussed the interest of the country in "a ring away out in far Nevada, where a black man and a white man were pounding each other yesterday."

President Jordan favored the substitution of the English game of Rugby for the best there is in American youth. At most of the eighteen departmental meetings of the convention to-day there was at least one advocate of the production of industrial training and agriculture in the secondary schools.

At the second meeting of the general session of the association, to-night President James J. Joyner, of North Carolina, delivered his annual address.

He was followed by Commissioner of Education Brown.

A memorial address upon the life and work of Dr. William Torrey Harris, late United States Commissioner of Education, was delivered by James M. Greenwood, of Kansas City, Mo.

Responsibility of Teachers.

Upon the teachers of America to whom is entrusted the training of American citizenship, rests in a large measure the burden of preserving the liberty of the nation, said W. W. Kitchen, Governor of North Carolina, in an address yesterday at the National Educational Association in the stadium of Harvard University. The chief need of the citizenship, he said, is more intellect and character.

Governor Kitchen began his address by referring to the birth of the republic, the wisdom of its founders, and the Civil War. The South, he said, had been mistaken in thinking that it could prosper without the North. Rising from defeat, he said, the South "marched forward as if by magic steps, an unstinted devotion to the American spirit filling every man."

"The South," he continued, "stands erect in his dignity and power, proud of the North and the West, his heart filled with good will to all, malice to none."

In referring to evidences of greatness in his own State, the speaker, among other things, touched on financial conditions.

"Last month," he said, "North Carolina sold, for millions of dollars, 4 per cent. refunding bonds. The financial market in the money centers would not absorb them, as investments could be secured with a greater interest rate. We called the North Carolina bankers together and explained the situation. They promptly over-subscribed the unsold portion, and thus made our third declaration of independence. These bonds are legitimate, and are unrelated to the illegitimate, special tax bonds of 1893-9, which were conceived in sin and brought forth in iniquity, which profited only those who pillaged, and which have from the time of their birth been hawked over the country as investments. They were secured on the speculator's table, gambling in the fraud of adventures in the attempted plunder of a Commonwealth, and trusting for collection to the methods of the blackmailer."

A Great People.

"To-day material development, in resources, in energy, in all that makes national power, we are a greater people than Alexander or Caesar or Bonaparte ever knew." The Governor continued, "but let him that standeth take heed lest he be made to lie down. What shall it profit a nation to circle the earth with power, emblazon the seas with prestige and command homage from every capital, and yet fall to remedy domestic evils, forget justice for the poor, neglect the needs of the weak and the wrongs of the mighty? Our forefathers faced no greater problems than this generation has to solve. Every age has its own interests, its own rights to preserve."

"As civilization becomes more and more complex the methods of oppression keep pace therewith, and every generation requires more and more intelligence to resist them. In former times we had the highway robber—we now have the gold brick swindler; then we had oppressive tax levies to support privileged classes, now we have the industrial monopolist. Then we needed more force, now more intellect and conscience."

"We are safe from foreign foes, we need danger from domestic ones, and bold domestic ones are indirect, shrewd, insidious. It may require force—armies and navies—to repel the former; it requires wisdom, diligence and honor to overcome the latter. A country whose government rests upon the will of the people, in order to have a certain just government, whose burdens are levied, and whose blessings are distributed impartially, must have a high class citizenship—so intelligent that it cannot be deceived, so conscientious that the greatest corruption is courageous that it cannot be intimidated."

"The training of this citizenship largely depends upon the teachers of America. You are the worthiest band of captains the world ever knew, leading the grand army of the republic—the boys and girls of America, against the forces of injustice, ignorance and prejudice—leading them to victory in the fields of light and truth."

PETERSBURG FANS WILL SUPPORT TEAM

Franchise Definitely Placed, and First Game at Home Will Be Played Against Danville on Friday Afternoon.

Petersburg, Va., July 5.—The franchise of the Portsmouth baseball team was definitely placed in Petersburg to-day, and by that action the city again enters the Virginia State League, and enters it with a determination to play ball in earnest and to make a good record. A conference of a number of business men of the city was held this

afternoon in the Chamber of Commerce with Manager Jack Grim, owner of the Portsmouth franchise, and C. R. Williams, president of the Roanoke club, at which the matter was fully discussed. Mr. Grim made a statement as to the cost of maintaining the team here and the advantages that would inure to Petersburg in the advertising a good team would give the city.

Mr. Williams, of Roanoke, spoke along the same line, and referred to the fact that the Virginia League had long been anxious to get Petersburg in the league. J. Gordon Finney, secretary of the Chamber of Commerce, advocated the placing of the franchise here. A great deal of interest was manifested at the meeting, and when it was announced that the only thing needed to secure the franchise was a proper financial backing the response came very promptly.

One public-spirited citizen declared that he would pledge himself for one-third of the required amount, and it was decided that the only thing needed to secure the franchise was a proper financial backing the response came very promptly.

Work will be begun at once in preparing a park for games. It was decided at a meeting to-night to let the team lay off on Thursday and to make its first appearance on the home grounds on Friday afternoon, when a double-header will be played against Danville. Beginning with that day Petersburg will take up the regular Portsmouth dates on the schedule.

A committee, consisting of Dennis Perkins, J. B. Harrison, John R. Jones, H. P. Harrison and J. Gordon Finney, was appointed to make arrangements for the transfer of the franchise to Petersburg, and within two hours the committee had discharged its duty and secured the franchise.

[Special to The Times-Dispatch.] Buena Vista, Va., July 5.—The celebration here yesterday was a great success. A big crowd was present, and everything passed off in a successful manner, only one arrest being made during the day.

In the races, running class, Roy Terrell, of Brownsburg, won first prize, Mrs. Whipple second and J. H. Glasgow third.

Trotting class—R. S. Walker, first; W. T. Robey, second; R. A. Depriest, third.

Ladies' driving class—Mrs. D. S. Bromley, first; Mrs. M. P. Brown, second; Mrs. A. Souder, third.

BOARD ASKS RESIGNATION

Baltimore Chief of Detectives Given Up Position After 35 Years Service.

Baltimore, Md., July 5.—Captain of Detectives A. J. Humphrey handed in his resignation to the board of police commissioners to-day after a service of thirty-five years in the department. His resignation was on the request of the board, which declined to retire him on half pay or to pension him.

It was due to statements made before the grand jury, which is investigating allegations of municipal graft, to the effect that Humphrey had received pay from a localidelity company for work done for it. Humphrey admitted this, but declared that the services were performed outside of his regular duties.
